Mobile: 91- 9689954243

CAREER OBJECTIVE:

I am Computer Science Engineer now I learn in D Y Patil College Of Engineering and Technology, Kolhapur. I would like to be a part of an organization where I could utilize my technical skill and enhance my knowledge and talent for the development of both the organization and myself . Strong will to prosper in any assigned duties. Passion to quickly learn and adjust to new environments and technologies.

EDUCATION:

Degree	Univercity/Board	School/College name	Year of Passin g	Percentage
B.Tech	Shivaji Unversity, Kolhapur.	D Y Patil College Of Engineering and Technology, Kolhapur	2027	
Diploma	MSBTE Board	Dr. Bapuji Salunke Insistuate Of Engineering and Technology, Kolhapur	2024	86.46
10 th	SSC Board	Ganpathrao Aabaji Dongale High School, Ghotawade.	2021	93.80

PROJECTS:

1. Dairy Bill Management System:

Description :- Create a Software for managing a Milk Dairy in which all farmers data are store and adds daily transactions of milk bill and lastly generate all 10 days bill

Key Technology :- 1. Language - Asp.net

2. Database - SQL

3. Operating System - Windows 10

2. Interactive Quiz game :-

Description:- Create A Quiz game where quiz are store and solve it by users then system display users Result and whole questions answers.

Key Technology :- 1. Language – HTML, CSS, JavaScript.

2.Operating System - Windows 10

SKILLS:

Communication skills

Problem Solving

Database Management

Technical Skills:

Languages :- C, C++, Java, Python,

Web Programming Scripting :- HTML, CSS, JavaScript

Technology:- Data Structure and algorithm, Database (SQL)

MS–Office:- Word, PowerPoint, Excel.

C Language

1. Introduction, Basic Syntax and structure
2. Data types, Variables, operators, Control flow
3. Array, strings, Functions
4. Pointer and Memory Management.

Object- Oriented Programming Language

1. Fundamental of OOP and Basic of C++
2. Functions, Arrays, Structure, Union, Pointer
3. Classes and Objects
4. Constructors and Destructors, Inheritance, Polymorphism
5. Exception Handling, File Organization.

Data Structure

1. Introduction to Data Structure and Algorithms
2. Searching and sorting
3. Stacks and Queues
4. Linked Lists
5. Trees, Graph.

Client Side Scripting Language(JavaScript)

1. Basics of JavaScript Programming
2. Array, Functions and String
3. Building block of a Form and Some event handling
4. Cookies and Browser data
5. Regular expression, Rollover and Frames
6. Menus, Navigation and web page protection.

Mobile Application Development(Android)

1. Android Activity design using basis components and Layouts.
2. Designing User Interface with view
3. Activity and Multimedia
4. Security and application development

Python

1. Python Operators and Control Flow statements
2. Data Structure in python(Lists, Tuples, Sets, Dictionaries)
3. Python functions , modules and packages.
4. Object Oriented Programming in python
5. Basic File Input/ Output Handling and Exception Handling

Soft skills And Behavioral Competency :

- Smart Work and Disciplined
- Honest and Collaborative
- Ability to cope up with changing environment
- Self-Motivated
- Entrepreneur Mindset
- Good Management Skills at pressure situation

Core Java–

1. Proficient in analyzing and solving complex logical scenarios through coding.
2. Mastery of Object-Oriented Programming (OOP) concepts.
3. Ensuring efficient and scalable codes.
4. Demonstrated expertise in Java Database Connectivity (JDBC) and Java Server Pages (JSP).
5. Solid understanding of Java Collections Framework and its Hierarchical structure
6. Enhancing data manipulation through codes.
7. Skilled in crafting concise and modular Java code.
8. Developing logical solutions and algorithms to address unique scenarios effectively.

• Manual Testing –

1. Proficient knowledge about Defect Life Cycle, STLC, SDLC phases and all models.
2. Good at consistently crafting concise and informative Defect Reports & Test Cases.

• Automation Testing-

1. Strong knowledge of **Selenium Architecture**.
2. Proficient in Browser Controlling Methods.
3. Sound Knowledge of Action Class.

• SQL-

1. Proficient in SQL programming language

2. Constraints, Operators, ACID Properties

3. Clauses (Distinct, Where, Group By, Having, Order By) 4. DDL, DML, TCL,
DQL, DCL
